

We believe in the power of digital

# Sea ahead.

We live in challenging times. Future-proofing and digital monitoring are more critical than ever. Our flexible digital solutions empower you to stay competitive, fast and safe in the constantly evolving marine sector.

Everybody is talking about digitalization. We're making it happen. And revolutionizing the marine business along the way. Because we believe that safely navigating the uncertain seas of tomorrow requires the technologies of tomorrow. From predictive monitoring, assistance and advice about flexible upgrades of your equipment through to sophisticated data solutions.

# Reliable and safe solutions for data leverage

When state-of-the art digital technology meets expertise and domain knowledge

We believe in the reliability and robustness of our engines. And we believe that our digital solutions can make them even better – enhancing efficiency, availability, security, and safety, while also making a positive impact on the environment. We have a broad digital portfolio reflecting the different areas of application of our products.

## Everllence PrimeServ Assist

PrimeServ Assist combines state-of-the-art AI with profound domain knowledge of how to achieve maximum equipment availability, safety, and performance. Our sophisticated algorithms help detect problems ahead of time while our experts read and analyse the available data and advise on the best course of action.

## Everllence Asset+

Everllence Asset+ includes all of our customizable and flexible solutions to adapt and upgrade equipment with new features and functionalities.

## Everllence Data+

With Everllence Data+, we help you enable you to unlock maximum value from your equipment data and turn it into a key driver for meeting growing demands for availability, efficiency and decarbonization.

## Everllence CEON

Everllence CEON is the cloud-based platform for the collection, processing and analysis of sensor data. It is the backbone of our digital ecosystem.

Our digital solutions keep your engine...
